In addition to the Software and the related services required for the provisioning of the Software, the Parties may agree upon specific "**Professional Services**" to be rendered by Service Provider according to the terms and conditions of this Agreement.

**Now, therefore**, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

#### 1. Customer's Use of the Service.

**1.1 Service Provider Obligations.** Service Provider shall make the Software and the Services required for provisioning the Software (Software and Services hereinafter together and individually may also be referred to as "**Service**" or "**Services**") available to Customer as described in the Services Description and in the Services Specific Terms (together hereinafter referred to as "**Services Description**") referenced in the Order Forms and according to the terms and conditions of this Agreement. Service Provider may amend the Services from time to time, provided that such amendments shall not materially diminish the overall Service. Service Provider aims to provide the Software access to Customer within two (2) working days upon the Effective Date, unless otherwise set forth in the Services Description. The Software may consist of a web application provided to Customer in the form of a software as a service solution and a mobile application to be installed by Customer on its mobile device. The agreed scope and quality of the Services is exclusively set forth in the Services Description. Public statements concerning the Service made by Service Provider or its agents will only be binding on the Service Provider when expressly confirmed by Service Provider in writing. Information and specifications contained within the Services Description shall not qualify as a warranty or guarantee with regard to the Service's quality or as any other kind of guarantee, unless they have been confirmed as such by Service Provider in writing. Service Provider may update and improve the Services from time to time; any such Updates, meaning software that remedies "**Defects**" (as defined in section 7.4) in the Services and/or may include minor improvements of the Services, are included in the Agreement. In addition to Updates, Service Provider may offer Upgrades and/or Add-On Services to the Services, where "**Upgrades**" mean new capabilities or functionalities of the Services and "**Add-On Services**" either mean (i) new and/or additional functionality packages in the form of separate modules to the Services, or (ii) integrations or connection applications with other Hilti or third party software applications. Upgrades and Add-On Services are subject to the Agreement and will only be available to Customer if ordered separately and paid for by Customer, where additional terms and conditions may apply.

**1.2 System Requirements.** The operation or use of the Services by Customer requires certain system requirements as described in the Services Description which are subject to change at the discretion of Service Provider. The specification of system requirements does not form part of Service Provider's obligations under this Agreement. Customer shall be solely responsible for obtaining any and all system requirements required to operate or use the Services. Service Provider is not responsible for problems, conditions, delays, failures and other loss or damages arising from Customer not complying with the system requirements and/or related to Customer's network connections, telecommunication links or caused by the Internet.

**1.3 Authorized Users.** Unless otherwise defined in the Services Description, Authorized Users means Customer's employees authorized by Customer to use the Services according to the terms of the Agreement ("**Authorized Users**"). Customer shall assign the software access to its Authorized Users to enable registration, access and use of the Services according to the terms and conditions of this Agreement, according to section 3.3.

**1.4 Customer Obligations.** Customer must ensure that (i) its Authorized Users have entered complete and accurate information about its company and each person within the registration process and, but not limited to, have not used any pseudonyms, (ii) its Authorized Users use the Service in compliance with the terms of this Agreement and (iii) that its Authorized Users use reasonable efforts to prevent unauthorized access or use of the Service by employees not considered as Authorized Users or third parties, and to notify Service Provider promptly of any such unauthorized access or use.

4.3 **Remedies.** If a Party discloses or uses (or threatens to disclose or use) any Confidential Information of the other Party in breach of confidentiality protections hereunder, the other Party shall have the right, in addition to any other remedies available, to injunctive relief to stop such acts, it being acknowledged by the Parties that any other available remedies are inadequate.

However, Software Provider has the right to take action in a court that has jurisdiction over Customer's place of business. All parties hereby recognise the jurisdiction of these courts and waive any objections to the place of jurisdiction.

**15.10 Further Provisions.** The respective Order Form, including the Services Description it references to, this Agreement and its Exhibits, constitute the entire agreement between the Parties with respect to the subject matter hereof. There are no agreements, representations, warranties, promises, covenants, commitments, or undertakings other than those expressly set forth herein. This Agreement supersedes all prior agreements, proposals or representations, written or oral, concerning its subject matter. In the event of a conflict between this Agreement and one or more of the documents attached hereto or referenced herein, the documents shall be construed consistently, insofar as reasonably practicable, but to the extent of any inconsistency, they shall be controlling in the following order: (1) the Order Form, (2) Services Description, (3) this Agreement, and (4) its Exhibits. Notwithstanding any language to the contrary therein, no terms or conditions stated in a Customer purchase order or in any other Customer order documentation shall be incorporated into or form any part of this Agreement, and all such terms or conditions shall be null and void.

**15.11 Form Requirement.** No modification, amendment, or waiver of any provision of this Agreement shall be effective, unless being agreed upon in text form (e.g. email, notifications, etc.) or in writing by the Party against whom the modification, amendment or waiver is to be asserted. Transmission by fax, e-mail or any other equivalent form of electronic exchange or execution shall be deemed to comply with such form requirement. The Parties furthermore acknowledge and agree that this Agreement may be executed, exchanged, stored and processed by applying any form simple- or advanced eSignatures (e.g. DocuSign, etc.) and that such eSignatures shall comply with the written form requirement. The Parties agree that they will not challenge the authenticity or correctness for the sole reason of the Order Form and/or the Agreement being executed in electronic form only.

**15.12 Language.** The parties hereto have requested that this Agreement and all correspondence and all documentation relating to this Agreement, be written in the English language. Les parties aux présentes ont exigé que la présente entente, de même que toute la correspondance et la documentation relative à cette entente, soient rédigées en langue anglaise.

Service Provider shall, if reasonably possible, promptly notify Customer in writing if it is or will be affected by a Force Majeure event. ## Exhibit 1 (Service Level Agreement) to the Software and Services Subscription Agreement

### 1. Service Availability

#### 1.1. Target Monthly Availability SLAs

Service Provider will use commercially reasonable efforts to make the Service available twenty-four (24) hours a day, seven (7) days a week (24/7), with the targeted monthly end to end uptime of ninety-five percent (95%), meaning that access to the Service (Web-application or a smartphone application) is targeted to be available 95% of the time over a whole calendar month ("Target Monthly Availability SLAs"). Customer acknowledges that the Target Monthly Availability SLAs are only targets and cannot be guaranteed.

The stated Target Monthly Availability SLAs exclude: (i) Planned Service Downtime (as set forth in Section 1.2 below) and (ii) any unavailability caused by circumstances beyond Service Provider's reasonable control, including without limitation, force majeure acts of God, acts of government, flood, fire, earthquake, civil unrest, acts of terror, strikes or other labor problems (other than one involving employees of Service Provider), denial of service attacks as well as failures or delays in connection with computers, telecommunications, internet service providers or hosting facilities involving hardware, software or power systems not within Service Provider's possession or reasonable control.

#### 1.2. Planned Service Downtime.

For the purpose of supporting or maintaining the Service (including, but not limited to the roll-out of Updates), the Service might experience a Planned Service Downtime. Service Provider shall, to the extent reasonably practicable, schedule Planned Service Downtime outside of general business hours. The Service Provider shall make good faith efforts to give notice to Customer of such Planned Service Downtime as soon as possible, but at least twenty-four (24) hours via appropriate means (e.g. email or telephone).

#### 1.3. Unplanned Service Downtime.

In case of Unplanned Service Downtime with or without control of Service Provider, Service Provider shall make good faith efforts to send a notification to Customer informing Customer thereof. Service Provider shall further make good faith efforts to provide reasonable updates on the progress for restoring the Service and to inform Customer as soon as the Service is available again.

### 2. Support

#### 2.1. Severity Levels of Support Requests

Support requests can be raised for Defects of the Service (Severity Level 1-4, as described below) and for general questions regarding the Service (Severity Level 4, as described below). In case of a support request the severity is determined in accordance with the following definitions below ("Severity Levels"):

**Severity 1.** Customer production use of the Service is stopped or so severely impacted that the Customer cannot reasonably continue work. Customer experiences a complete loss of Service. The operation is mission critical to the business and the situation is an emergency. A Severity 1 service request has one or more of the following characteristics:

- All or the majority of data is corrupted which makes it impossible for the Customer to work with the Software (Web-application and smartphone application).
- All functions or most functions not available; no backup system in place
- Software (web-application and smartphone application) hangs indefinitely, causing unacceptable or indefinite delays for resources or response
- Software (web-application and smartphone application) is not available, aside of announced Planned and/or communicated Unplanned Service Downtime

**Severity 2.** Customer experiences a severe loss of Service. Important features of the Service are unavailable with no acceptable workaround; however, operations can continue in a restricted fashion. A Severity 2 service request has one or more of the following characteristics:

- Important functions not available; backup system in place
- Software (web-application and smartphone application) experiences major performance delays, timeouts

**Severity 3.** Customer experiences a minor loss of Service. The impact is an inconvenience, which may require a workaround to restore functionality.

**Severity 4.** Requests that do not address a Defect of the Services but are related to general information about the Service.

#### 2.2. Service Levels for Support Request.

Service Provider will respond to the support request as described in Section 2.4 and will use commercially reasonable efforts to provide a response within the time frame described in the table set forth below. The response time indicates the time from a support request being received by Service Provider via one of the Support Channels defined in Section 2.3 to the receipt of a response by Service Provider that addresses the issue, by either requesting additional information or providing information on the course of action to resolve the support request. Response times are only applicable during Service Hours, excluding public holidays in the country of residence of Service Provider.

Severity Level	Target Response Time
Severity 1	Four (4) hours
Severity 2	One (1) day
Severity 3	Two (2) days
Severity 4	Four (4) days

#### 2.3. Support Channels.

Service Provider will provide telephone and email support via Service Provider Customer Service ("Support Channels") during the defined Service Hours. To make sure that severity 1-3 requests get respective attention by Service Provider, such support requests have to be raised by phone via the customer support number. Severity 4 support requests can be also raised via email. Contact details and Service Hours are published online under the following [link](#).

#### 2.4. Support Process Description.

The Service Provider logs the support request with the appropriate initial Severity Level and informs Customer that the support request has been logged via appropriate means. If further information needs to be provided by Customer, Service Provider will contact Customer to request the missing information. For Customer specific support requests or critical issues Service Provider will use best efforts to directly inform Customer as soon as a workaround solution, another temporary fix or a resolution has been found. For general application Defects and improvements, Customer can find relevant information in the general release documentation and will not be informed proactively. The Severity Level of a support request may be adjusted during the support process.

#### 2.5. Accessing Customer Data and Using Remote Assistance Tools.

In order to be able to provide the support services, Service Provider may need to use Remote Assistance Tools or access Customer Data in accordance with the Agreement as well as applicable data protection laws and legislation. By allowing the Service Provider the use of Remote Assistance Tools, Customer consents to granting Service Provider remote access to Customer Data and temporary access to and control over the relevant computer and/or device. Before granting remote access to Service Provider Customer should take adequate measures such as backing up its data that resides on the relevant device and make sure that any Customer confidential information not relevant for the support request is not available or exchanged via the remote session. Without Customer's consent data not related to the provided Service is not stored or processed in any form by Service Provider.

#### 2.6. Escalation Process.

If Customer believes in good faith that Customer has not received quality or timely assistance in response to a support request or that Customer urgently need to communicate important support related business issues to Service Provider's management, Customer may escalate the support request by contacting Service Provider and requesting that the support request be escalated to work with Customer to develop an action plan.

### 3. Customer Obligations

Customer must ensure to provide reasonable availability of a contact person when resolving a support request.

#### 3.2. Process Updates.

Customer needs to make sure to communicate to Service Provider the following changes/updates:

- any changes/additional information that occurred/got available since the support request was raised and that influence the support request.

### **3.4. Communication to User Community.**

Service Provider will inform Customer about any system relevant events (e.g. communication of Planned Service Downtimes etc.) via the announcements in the Services or via the Services dedicated information webpage. It is the obligation of Customer to inform the relevant Customer's end users about this event.

### **3.5. Failure to co-operate.**

If Customer fails to meet the obligations described above, Service Provider shall not be responsible for any consequences resulting therefrom, including but not limited to any delays in resolving a support request and/or any failure in meeting any Service Levels as set forth in this Agreement.

### **3.6. Non-Applicability of the Service Level Agreement.**

Unless otherwise set forth in the Services Description, the Service Level Agreement does not apply to (i) Services being provided Free of Charge, (ii) Services being provided for mobile applications, (iii) Add-On Services and (iv) Non-Hilti-Services ("**Excluded Services**"). **Exhibit 2 (Data Processing Agreement)  
to the Software and Services Subscription Agreement**

The terms being used in this DPA shall have the same meaning as under the Agreement and as further specified herein.

This DPA is entered into by and between:

- (i) the Customer, acting as controller (“**Controller**”); and
- (ii) Service Provider, acting as processor (“**Processor**”);
- (iii) each a “**Party**”, together the “**Parties**”.

This DPA is intended to comply with the requirements of applicable data protection laws. This means that the GDPR references and obligations should be considered mutatis mutandis of the applicable local data protection laws when said is not GDPR. When equivalent obligations do not exist under local laws, then the clauses should be considered as contractual obligations designed to apply an equivalent level of protection as the one prescribed under GDPR, referencing the GDPR articles as guidance to clarify the intent.

**1. Subject of this DPA**

In the course of rendering the Services under the Agreement, Service Provider handles personal data with regard to which Customer acts as the controller in terms of applicable data protection law (hereinafter referred to as “**Customer Personal Data**”). This DPA specifies the data protection rights and obligations of the Parties in connection with the Service Provider’s activities of processing Customer Personal Data.

**2. Scope of the Processing**

- 2.1. Service Provider shall process the Customer Personal Data on behalf of and in accordance with the instructions of the Customer within the meaning of article 28 GDPR. The Parties agree that Customer is the controller within the meaning of article 4 paragraph 7 GDPR and Service Provider is the processor within the meaning of article 4 paragraph 8 GDPR.
- 2.2. The processing of Customer Personal Data by Service Provider occurs in the manner and the scope and for the purpose specified in the Services Description [LINK] (“**Service Description**”); the processing relates to the types of personal data and categories of data subjects and involves the processing operations that are specified in the Services Description, where those being applicable at the time of the Parties entering into the Agreement may also be set forth in an Exhibit to this DPA. In case of any contradictions the processing activities as being set forth in the online Services Description shall prevail.
- 2.3. The duration of processing corresponds to the term of the Agreement or as otherwise set forth in the Services Description.
- 2.4. Service Provider reserves the right to anonymize or aggregate the Customer Personal Data in such a way that it is no longer possible to identify individual data subjects, and to use them in this form for the purposes specified in the Agreement. The Parties agree that anonymized and according to the above requirement aggregated Customer Personal Data are no longer considered Customer Personal Data for the purposes of this DPA.
- 2.5. The processing of Customer Personal Data by Service Provider shall in principle take place in the Service Provider’s country or inside the European Union or another contracting state of the European Economic Area (EEA) or equivalent country. Service Provider is nevertheless permitted to process Customer Personal Data in accordance with the provisions of this DPA outside of the EEA if it informs the Customer in advance about the place of data processing and if the requirements of Chapter V GDPR are fulfilled. If Customer Personal Data shall be processed by a sub-processor whose processing of the Customer Personal Data is not subject to the GDPR, section 7.4 of this DPA applies.

**3. Instructions by Customer**

- 3.1. Service Provider shall process the Customer Personal Data in accordance with the documented instructions of Customer within the meaning of article 28 GDPR, unless Service Provider is by applicable law required to do otherwise. In the latter case, Service Provider shall inform Customer of that legal requirement before processing, unless that law prohibits such information on important grounds of public interest.
- 3.2. The instructions of Customer are in principle conclusively stipulated and documented in this DPA. Deviating individual instructions or instructions which impose additional requirements shall be consulted beforehand with Service Provider to assess feasibility and estimate the costs. Any additional costs incurred by Service Provider as a result of deviating individual instructions or instructions which impose additional requirements shall be borne by Customer.
- 3.3. Notwithstanding anything contrary in this DPA, Customer shall serve as a single point of contact for Service Provider and is solely responsible for the internal coordination, review and submission of instructions or request of other controllers (belonging to Customer group of companies) to the Service Provider. Service Provider shall be discharged of its obligation to inform or notify a controller when it has provided such information or notice to Customer. Similarly, Service Provider is entitled to refuse any instructions provided directly by a controller that is not the Customer. Service Provider will serve as a single point of contact for Customer and is solely responsible for the internal coordination, review and submission of instructions or requests from Customer to Service Provider’s sub-processor(s).
- 3.4. If Service Provider is of the opinion that an instruction from Customer infringes this DPA or applicable data protection law, Service Provider is after correspondingly informing Customer entitled but not obliged to suspend the execution of the instruction until Customer confirms the instruction. The Parties agree that the sole responsibility for the lawfulness of processing (as within the meaning of article 6 GDPR) Customer Personal Data lies with Customer.

**4. Legal Responsibility of Customer**

- 4.1. Customer is solely responsible for the permissibility of the processing of the Customer Personal Data and for safeguarding the rights of data subjects (as within the meaning of article 12 to 22 GDPR) in the relationship between the Parties.
- 4.2. Customer shall provide Service Provider with the Customer Personal Data in time for the rendering of the Services and it is responsible for the quality of the Customer Personal Data. The Customer shall inform Service Provider immediately and completely if, during the examination of Service Provider’s results, it finds errors or irregularities with regard to data protection law or its instructions.
- 4.3. On request, Customer shall provide Service Provider with the information specified in article 30 paragraph 2 GDPR, insofar as it is not available to Service Provider itself.
- 4.4. If Service Provider is required due to a mandatory statutory law or request to provide information to a governmental body or person on the processing of Customer Personal Data or to cooperate with these bodies in any other way, Customer shall at first request assist Service Provider in providing such information and in fulfilling other cooperation obligations, where Service Provider’s reasonable costs for such activities shall be borne by Customer.

**5. Confidentiality Obligation**

Service Provider shall oblige all personnel handling Customer Personal Data to maintain confidentiality.

**6. Security of Processing**

- 6.1. Within the meaning of article 32 GDPR, Service Provider shall implement necessary, appropriate technical and organizational measures, taking into account the state of the art, the implementation costs and the nature, scope, circumstances and purposes of the Customer Personal Data processing, as well as the different likelihood and severity of the risk to the rights and freedoms of the data subjects, in order to warrant a level of protection of Customer Personal Data appropriate to the risk.
- 6.2. The current set of technical and organizational measures in place can be found in the Services Description, where those being applicable at the time of the Parties entering into the Agreement may also being set forth in an Exhibit to this DPA. In case of any contradictions the technical and organizational security measures as being set forth in the online Services Description shall prevail.
- 6.3. Service Provider shall have the right to modify the technical and organizational measures during the term of this DPA, as long as they continue to comply with the statutory requirements.

**7. Engagement of sub-processors**

- 7.1. Customer grants Service Provider the general authorization to engage sub-processors with regard to the processing of Customer Personal Data. Sub-processors engaged at the time of conclusion of the Agreement are listed in the Services Description where those being applicable at the time the Parties entering into the Agreement may also being set forth in an Exhibit to this DPA. In case of any contradictions the sub-processor list as being set forth in the online Services Description shall prevail.
- 7.2. Service Provider shall notify Customer of any intended change in relation to the engagement or replacement of sub-processors via email, notification within the Services or via a subscription service offered by the Service Provider. Customer has the right to object to the engagement of a potential sub-processor. When raising such an objection, Customer shall specify its reasonable grounds for the objection. If Customer does not object within fourteen (14) calendar days upon Service Provider’s notification, its right to object to the corresponding engagement lapses. If Customer objects, Service Provider is entitled to terminate the Agreement and this DPA with a notice period of five (5) working days according to the further specifications in the Agreement.

7.3. The agreement between Service Provider and the sub-processor must impose the same or similar obligations on the latter as those incumbent upon Service Provider under this DPA. The Parties agree that this requirement is fulfilled if the contract provides a level of protection corresponding to this DPA, respectively if the obligations within the meaning of article 28 paragraph 3 GDPR are imposed on the sub-processor. The Parties further agree that this requirement may be satisfied in relation to cloud service providers providing platform, infrastructure or software as a service by concluding the latter's standard data processing agreements provided, they comply with the requirements within the meaning of article 28 GDPR.

7.4. Subject to compliance with the requirements of section 2.4 of this DPA, the provisions of this section 7 of this DPA shall also apply in the case of an engagement of a sub-processor whose processing of Customer Personal Data is not subject to the GDPR. In such a case, Service Provider shall be entitled and – to the extent that the requirements of section 2.4 of this DPA are not otherwise met – obliged to conclude a contract with the sub-processor incorporating the standard contractual clauses for the transfer of personal data to third countries pursuant to Regulation (EU) 2016/679 of the European Parliament and of the Council in accordance with Commission Implementing Decision (EU) 2021/914 of June 4, 2021, incorporating Module 3 (Transfer of Processors to Processors). If and to the extent necessary for providing an adequate level of protection in the relevant third country, such a contract shall provide for additional safeguards necessary for that purpose. Such additional safeguards (if any) may also be set forth in the Services Description. The Parties agree that such a contract shall also meet the requirements pursuant to section 7.3 of this DPA. Customer declares its willingness to cooperate in the fulfilment of the derogation requirements within the meaning of article 49 GDPR to the extent necessary.

## 8. Data subjects' rights

8.1. Within the meaning of article 28 (paragraph 3, point e) GDPR, Service Provider shall assist Customer, insofar as this is possible, by virtue of technical and organizational measures in fulfilling the latter's obligation to respond to requests for exercising data subjects' rights.

8.2. As far as a data subject submits a request for the exercise of his/her rights directly to Service Provider, Service Provider will forward this request to Customer in a timely manner if Service Provider is able to identify the data subject and an association with Customer is possible with reasonable efforts.

8.3. Service Provider shall, within the limits of what is reasonable and necessary, against reimbursement of the expenses and costs incurred by Service Provider as a result thereof and to be proven, enable Customer to correct, delete, block or restrict the further processing of Customer Personal Data, or at the instruction of Customer correct, delete, block or restrict further processing by itself, if and to the extent that this is impossible for Customer.

8.4. Insofar as the data subject has a right of data portability vis-à-vis Customer in respect of the Customer Personal Data within the meaning of article 20 GDPR, Customer should be enabled via the Services to extract the Customer Personal Data itself. Beyond that, Service Provider may, but is not obligated to, support Customer within the limits of what is reasonable and necessary in return for reimbursement of the expenses and costs incurred by Service Provider as a result thereof and to be proven.

## 9. Notification and Support Obligations of Service Provider

9.1. Insofar as Customer is subject to a statutory notification obligation due to a breach of the security of Customer Personal Data (in particular within the meaning of articles 33, 34 GDPR), Service Provider shall inform Customer in a timely manner of any reportable events in its area of responsibility.

9.2. Service Provider shall assist Customer in fulfilling the notification obligations at the latter's request to the extent reasonable and necessary, taking into account the nature of processing and the information available to the Service Provider, in return for reimbursement of the expenses and costs incurred by Service Provider as a result thereof and to be proven.

9.3. Insofar as Customer is subject to a legal or regulatory obligation of conducting a data protection impact assessment (in particular within the meaning of articles 35, 36 GDPR) or equivalent assessment, Service Provider shall assist Customer in fulfilling such obligation at the latter's request to the extent reasonable and necessary, taking into account the nature of processing and the information available to the Service Provider, in return for reimbursement of the expenses and costs incurred by Service Provider as a result thereof and to be proven.

## 10. Term, Termination, Deletion and Return of Customer Personal Data

10.1. This DPA shall come into effect upon the Agreement's Effective Date and shall upon its Effective Date be concluded for the term of the Agreement and shall be construed and interpreted together with the Agreement as one consistent document. In case of conflicts between this DPA and other arrangements between the Parties, in particular the Agreement, the provisions of this DPA shall prevail.

10.2. The termination provisions as being set forth in Agreement shall also apply to this DPA.

10.3. Service Provider shall delete the Customer Personal Data promptly after termination of this DPA, unless Service Provider is obligated by applicable law to further store the Customer Personal Data. If Customer would prefer the Customer Personal Data to be returned before being deleted, then Customer must immediately inform Service Provider for the latter to provide Customer a reasonable time period or as otherwise set forth in the Agreement - to extract the Customer Personal Data by itself.

10.4. Service Provider may keep documentations, which serve as evidence of the orderly and accurate processing of Customer Personal Data, also after the termination of the DPA.

## 11. Evidence and Audits

11.1. Service Provider shall provide Customer, at the latter's request, with all information required and available to Service Provider to prove compliance with its obligations under this DPA.

11.2. Customer shall be entitled to audit Service Provider with regard to compliance with the provisions of this DPA, in particular the implementation of the technical and organizational measures, including inspections on Customer behalf by a certified independent third-party professional.

11.3. In order to carry out inspections in accordance with section 11.2 of this DPA, the Customer is entitled to access the business premises of Service Provider in which Customer Personal Data is processed within the usual business hours (Mondays to Fridays from 10 a.m. to 4 p.m. local time) after timely advance notification in accordance with section 11.5 of this DPA at its own expense, without disruption of the course of business and under strict secrecy by means of written commitment of Service Provider's business and trade secrets.

11.4. Service Provider is entitled, at its own discretion and taking into account the legal obligations of Customer, not to disclose information which is sensitive with regard to Service Provider's business or if Service Provider would be in breach of statutory or other contractual provisions as a result of its disclosure. Customer is not entitled to get access to data or information about Service Provider's other customers, cost information, quality control and contract management reports, or any other confidential data of Service Provider that is not directly relevant for the agreed audit purposes.

11.5. Customer shall inform Service Provider in good time (usually at least thirty (30) calendar days in advance) of all circumstances in relation to the performance of the audit. Customer may carry out only one audit per calendar year against reimbursement of the costs.

11.6. If Customer commissions a third party to carry out the audit, Customer shall obligate the third party in writing the same way, as Customer is obliged vis-à-vis Service Provider according to this section 11 of this DPA. In addition, Customer shall obligate in writing the third party to maintain secrecy and confidentiality, unless the third party is subject to a professional obligation of secrecy. At the request of Service Provider, Customer shall immediately submit to Service Provider the commitment agreements with the third party. Customer may not commission any of Service Provider's competitors to carry out the audit.

11.7. At the discretion of Service Provider, proof of compliance with the obligations under this DPA may be provided, instead of an inspection, by submitting an appropriate, current independent third party audit report or a suitable certification by an IT security or data protection audit – e.g. according to ISO 27001, the IT baseline protection approach from the German Federal Office for Information Security (so-called "BSI-Grundschutz") or of any comparable approach – ("Audit Report"), if the Audit Report makes it possible in an appropriate manner for Customer to convince itself of compliance with the contractual obligations.

## 12. Final Provisions

12.1. In case individual provisions of this DPA are ineffective or become ineffective or contain a gap, the remaining provisions shall remain unaffected. The Parties undertake to replace the ineffective provision by a legally permissible provision which comes closest to the purpose of the ineffective provision and that thereby satisfies the requirements within the meaning article 28 GDPR.
