

High visibility just got better.

PRI 36 Green Rotating Laser

The beam from the PRI 36 Green Rotating Laser shines four times brighter than a conventional red laser beam, ensuring significantly better visibility over long distances. Hilti Pulse Power Technology delivers highly reliable readings even under bright light conditions. The PRI 36 laser receiver and remote control are combined into one device for convenient access to tool functions from afar. This tough tool is designed to be used horizontally and vertically, making it the pros' choice for a wide variety of applications.

Applications

- Transferring reference heights
- Leveling suspended ceiling
- Positioning drywall track
- Installing pipes and cable trays

Outperform

- Green laser provides up to four times better visibility and a finer, more accurate line compared to a conventional red beam
- Auto-alignment function for quick, automatic laser alignment at the touch of a button

Outlast

- Rugged and reinforced housing material with four handles
- A fully enclosed rotating head for indoor and outdoor protection
